DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Gregory Suh on 04/16/04.

The application has been amended as follow:

Claim 1 line 4 change "repeatedly" to "iteratively".

Claim 1 line 7 after "sub-networks", insert: – that are bound to a particular technology--.

Claim 1 line 10 deleted " wherein at least a particular one of the replacement sub-networks has multiple circuit elements, wherein at least one of the multiple circuit elements of the particular replacement sub-network is independently selectable by the method in a later iteration of the method for inclusion in a candidate sub-network", insert: – wherein, during an iteration, a first candidate sub-network is replaced in the design with a first replacement sub-network, the first replacement sub-network being comprised of multiple circuit elements, and during another iteration, a second candidate sub-network is replaced by a second replacement sub-network, the second candidate sub-network being comprised of at least one but not all circuit elements of the first replacement sub-network--.

Claim 6 line 2 change "repetitions" to "iterations".

Art Unit: 2825

Claim 7 line 3 deleted “and the storage structure stores replacement sub-networks that are bound to the technology,”.

Claim 7 line 5 change “repetitions” to “iterations”.

Claim 15 line 9 after “sub-network”, insert: --;

c) selecting from the design a second candidate sub-network that includes at least one but not all circuit elements of the first replacement sub-network; and

d) replacing the second candidate sub-network in the design with a second replacement sub-network, the second replacement sub-network being stored in the storage structure--.

Claim 16 has been canceled.

Claim 22 lines 1 change “claim 19” to “claim 21”.

Claim 23 lines 1 change “claim 19” to “claim 21”.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

Claims 1-8, 10, 13-15, and 17-24 are allowed because the prior art does not teach or suggest a method for performing technology mapping, the method comprising: a) receiving a design; b) iteratively: selecting from the design a candidate sub-network; identifying at least one replacement sub-network from a storage structure that stores replacement sub-networks that are bound to a particular technology; and replacing the selected candidate sub-network in the design with the replacement sub-network; wherein, during an iteration, a first candidate sub-network is replaced in the design with a first replacement sub-network, the first replacement sub-network being comprised of multiple circuit elements, and during another iteration, a second candidate sub-network is replaced by a second replacement sub-network, the second candidate sub-network being comprised of at least one but not all circuit elements of the first replacement sub-network.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".
